
YL Teaching Centre Re-Brand Requirements

Requirements

Requirement	How it can be achieved
Maintenance	<ul style="list-style-type: none">• Permanent robust base branding with elements which can be changed quickly and easily without damage when the Brand changes• No vinyl or small letters and objects attached directly to wall finishes which will need re-painting/refreshing• Small modular replaceable elements, to avoid having to replace entire areas if damaged• No dates or facts which will be quickly outdated• Materials must be robust and not easily damaged or removed• Elements should not require constant re-setting or re-loading by British Council staff
Child protection	<ul style="list-style-type: none">• Children never in a fully enclosed room or areas without visual access by staff (for example a window or opening)• General public views of children blocked or partially obscured• Minimum 10mm gap between moving parts to avoid trapped fingers• No protruding elements at children's head level• Rounded and softened/protected corners• Robust furniture, fixtures and fittings which won't collapse if jumped on• Protection from falling and no climbable objects which could lead to falling
Environmental and financial sustainability	<ul style="list-style-type: none">• Do more with less, minimise quantity of all material types, in particular plastics• Re-use and retrofit existing materials where possible• Propose materials with the same longevity as their projected use (for example a 5-year lease), including weather proofing• Specify and procure locally sourced materials to minimise transport and support local markets and communities• Select reduced high-embodied carbon materials and use natural and recyclable materials where possible• Avoid doubling up on wall finishes where possible• Use mechanical fixing where possible, instead of adhesive• Design flexibly to cater for changing needs without significant remedial works• Design for quick and easy deconstruction and recycling• Maximise pre-fabrication and buildability• No bespoke items which would require significant research and development to create
Accessibility	<ul style="list-style-type: none">• Cater for visual impairment through aspects such as defined door frames/skirting/touch points, no confusing patterns• Cater for hearing impairment, good sound absorption and insulation• Cater for accessibility such as those in wheelchairs, including clear signage, floor indicators and brand appropriate elements• Use British Council Sans
Safety and security	<ul style="list-style-type: none">• Comply with all local legislation, in particular fire regulations• All glass must be laminated or have safety film applied to protect from explosions• Non-slip hard wearing floor materials

Example of toolkit implementation, which needs to be improved on

External façade logos

Front of House

Entrance

Points of sale

Corridors

Classrooms

Back office

Teaching Centre Typical Floor Plan

Rear entrance

Indicators on door to show it's glass

Where are opening and call buttons attached, if any?

20mm deep cut out acrylic

10mm deep cut out acrylic

Paint, match brand colour as closely as possible

Floodlight logo using directional ceiling spot lights

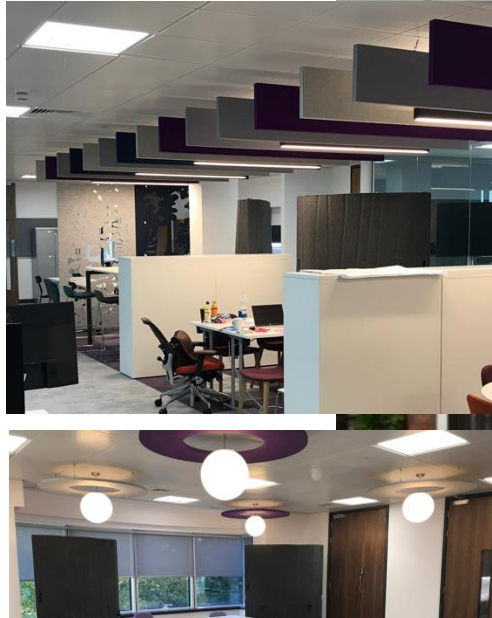

Add protective skirting where wall meets the floor

Raised cut out panels, mix of paint and vinyl on panel, can be removed easily for re-painting of wall

Corridor

10mm deep
cut out acrylic

Ensure door frames stand out
from wall colour more for
visual impairment, a darker
blue for the frame may suffice

Not enough acoustic
absorbing materials in
corridor, install hung
acoustic panels using bright
colours, 2 examples above
from our offices

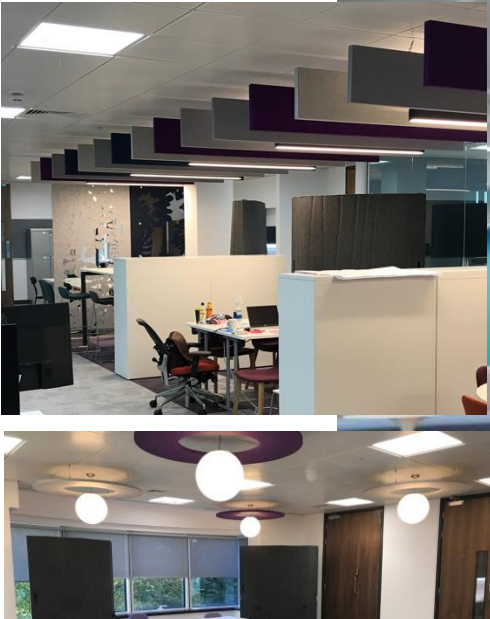

Raised cut out panels, mix of paint
and vinyl on panel, can be removed
easily for re-painting of wall

Install kick
panels

Move vinyl
numbering above
kick panel

Corridor

Not enough acoustic absorbing materials in corridor, install hung acoustic panels using bright colours, 2 examples above from our offices

10mm deep cut out acrylic

Ensure door frames stand out from wall colour more for visual impairment, a darker yellow for the frame may suffice

Change furniture to flexible, moveable and fun child friendly furniture

Raised cut out panels, mix of paint and vinyl on panel, can be removed easily for re-painting of wall

Install kick panels

Move vinyl numbering above kick panel

Library/waiting area

Include some creative school type bookshelves and furniture, this is just an example, choose locally available pre-made products

Try this here

Frosted film pattern up to 700mm high from floor, clear glass above, to avoid feeling of vertigo

Indicators on glass at 1200mm from floor to show it's glass, to avoid people walking into glass

Front of house

No timber ceiling or lights like this, use hung acoustic panels instead

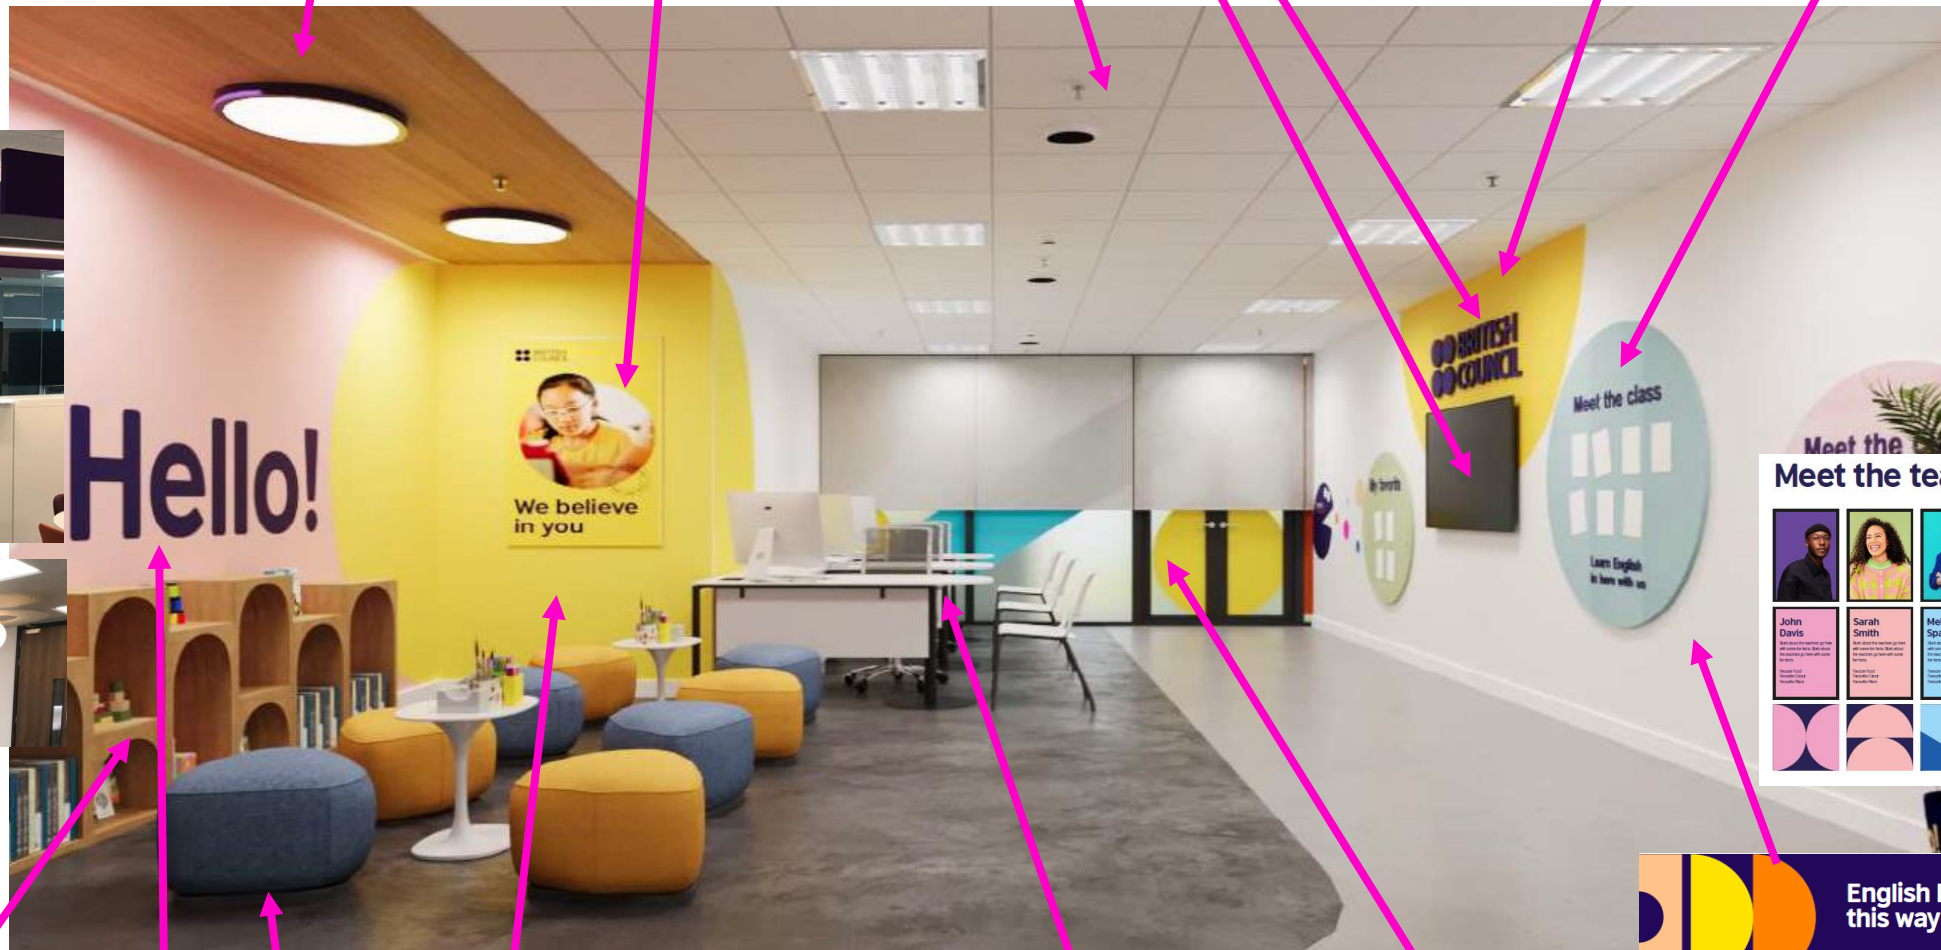

Vinyl applied to panel

Relocate TV away from coloured panel
Open ceiling, no grid panel

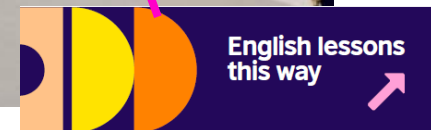

20mm deep cut out acrylic

Floodlight logo using directional ceiling spot lights

Fabric pin board with cut out acrylic text

Meet the teachers

Try this text here

Not enough acoustic absorbing materials in corridor, install hung acoustic panels using bright colours, 2 examples above from our offices

Is this off the shelf inexpensive furniture, if not, source some that is

10mm deep cut out acrylic

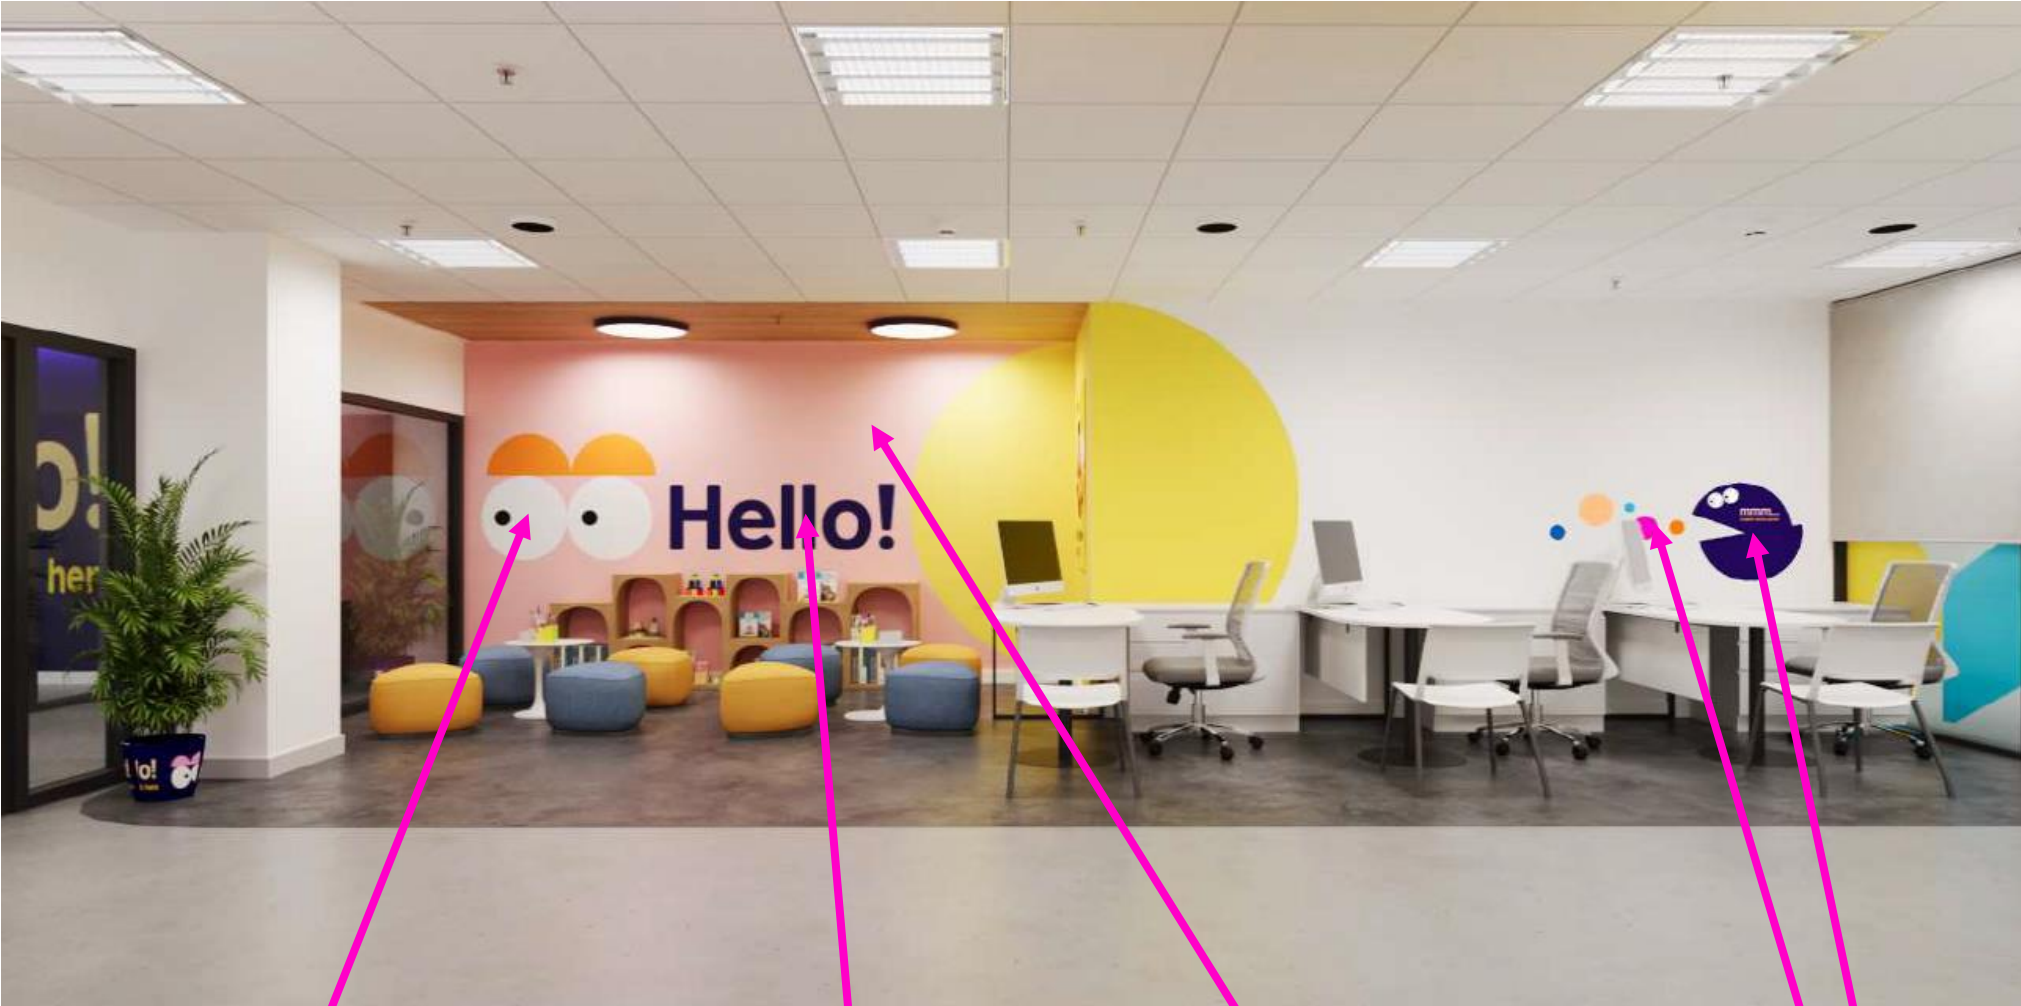

Add play mat on floor?

Raised cut out panels, mix of paint and vinyl on panel, can be removed easily for re-painting of wall

Modesty panel may need wrap around side for compliance, check with local authority

This is the main entrance, no blinds over door, semi-solid frosting pattern up to desk height, no frosting above, it needs to be open and welcoming

Front of house

Raised cut out panels, mix of paint and vinyl on panel, can be removed easily for re-painting of wall

10mm deep cut out acrylic

Paint

10mm deep cut out acrylic with vinyl applied for lettering

Classroom

Hung acoustic panels, mixed with lighting

Raised cut out panels, if painted, can be removed easily for re-painting of wall, avoid placing these on same walls as pin boards

Rectangular fabric pin board, no special shape cutting

Round fabric pin board applied over the top of rectangular pin board

Paint entire wall with whiteboard paint, use gloss coloured paint to paint on shapes, do not use individual panels or vinyl

Different floor colours?

Back of house

No special branding,
to reduce costs

Back of house

Try this here

Less-transparent up to 1700mm form floor, block view of AC units, transparent above 1700mm from floor

Garden theme, plant pots?

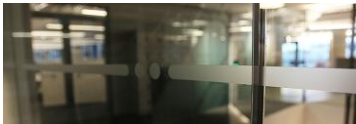

Outdoor furniture

Semi-transparent up to 1700mm form floor, enough to see activity inside, but avoid classes being disturbed by parents waiting, transparent above 1700mm from floor

Garden playground theme, fake grass?

This is at the main entrance, we need elements of this here

Entirely transparent, with only glass indicators

Semi transparent pattern up to 700mm from floor, entirely transparent above this

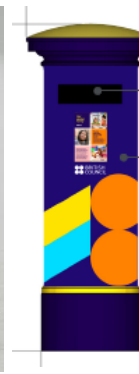

Try this on floor

Entrance

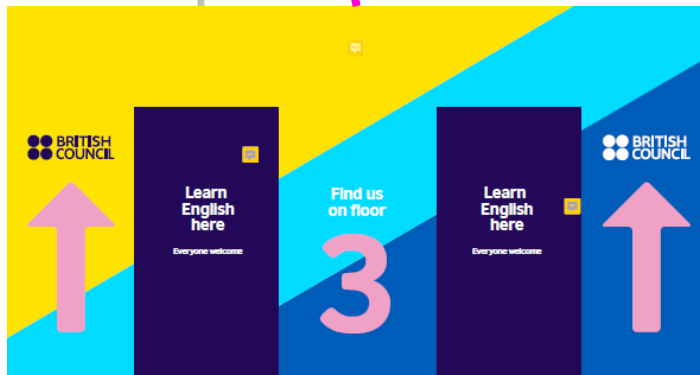

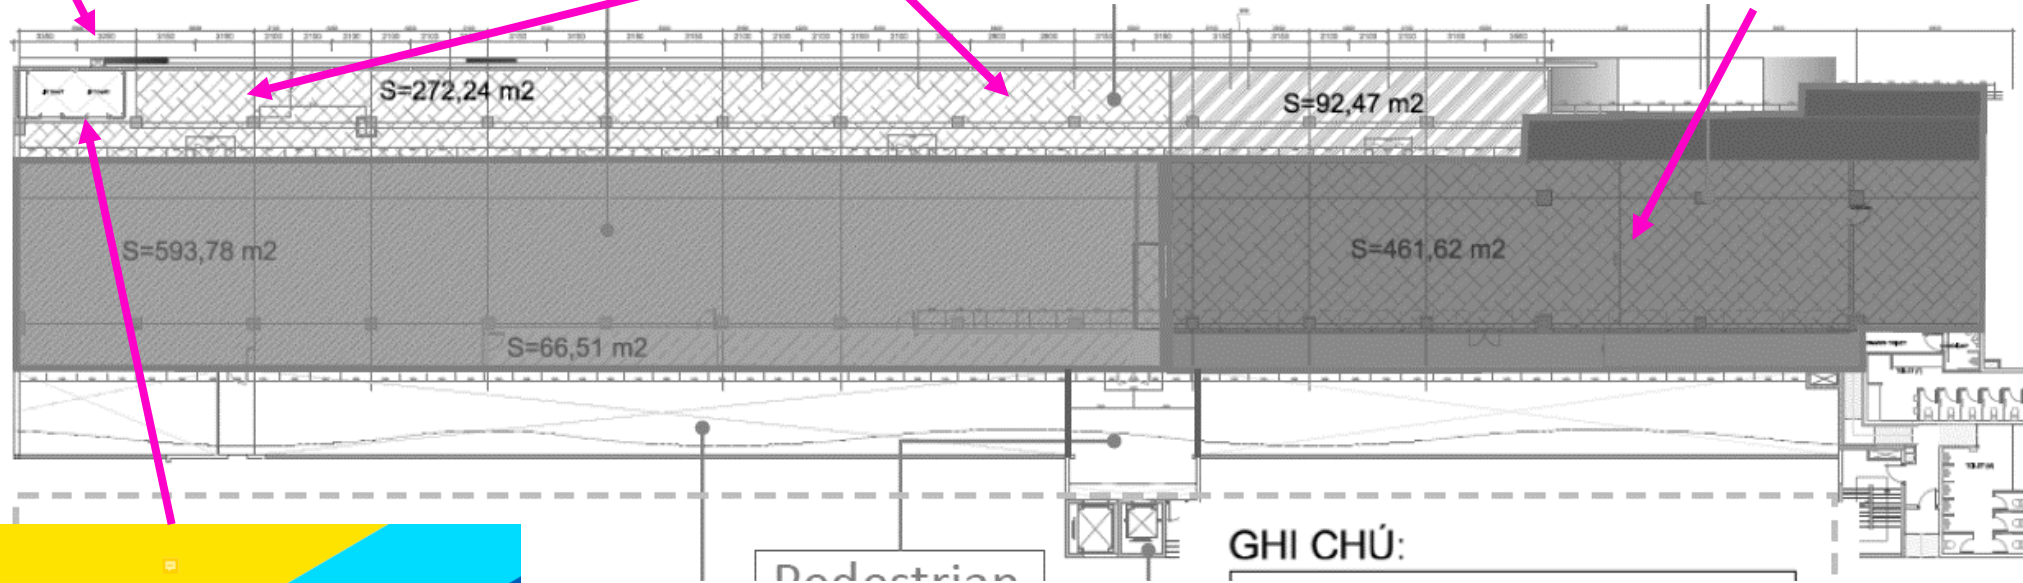

Look for other marketing opportunities on front of building

Try this here and on 1st floor

Put flags on the balcony, so can be seen from street

Our unit

Try this here on 1st and upper floor of elevators, even inside elevators, check with landlord

Priority items to be developed and priced now

Exterior

Original Toolkit

1.01 Exterior - Brand Plaque

Item:

Exterior Brand Plaque

Material:

Aluminium or acrylic sign plaque sprayed to match British Council purple on all sides.

Eco option of recycled/compressed paper ('Etronit' or similar product)

Screen printed graphics to front face

No visible fixings

- Attached to wall outside teaching centre building

Style 1: Text only

Style 2: With character

Style 3: With pattern

Comments (supersedes original toolkit)

Location:

On wall outside teaching centre

Changes:

- Review and propose best materials and fixing method
- Specify size based on distance of audience viewing panel, for example 1m, 5m, 10m, 20m, 50m away
- Specify dimensions of logo, lettering and shapes based on Brand hub guidance
- Specify colour references from headline sheet
- Rounded edges and corners for safety
- Ignore material brand names which aren't locally available

Usage

- For use in British Council owned centres and offsite centres

Exterior

Original Toolkit

1.02 Exterior - Brand Banner

4

Item:
Exterior Brand Banner

Material:  

Option 1- Flexible exterior grade pvc/vinyl banner directly with printed graphics to front face

Option 2 - Solid sign panel in aluminium or foamex with graphics applied.

Applied direct to building architecture, walls, railings etc

Note:
Design templates to be adapted locally with appropriate imagery and language. 

Style 1: Text and character

Style 2: Pattern and image

Style 2: Pattern and image

Comments (supersedes original toolkit)

Location:
On wall outside teaching centre

Changes:

- Review and propose best materials and fixing method
- Specify size based on distance of audience viewing panel, for example 1m, 5m, 10m, 20m, 50m away
- Specify dimensions of logo, lettering and shapes based on Brand hub guidance
- Specify colour references from headline sheet
- Remove dates, which will expire quickly
- Don't use flexible PVC/vinyl material and ensure proposed material will last for 5-years
- Images will need to be interchanged based on location at a later stage using Brand Hub YL photo shoot

Usage

- For use in British Council owned centres and offsite centres

Exterior

Original Toolkit

1.04 Exterior - Murals on existing walls

6

Item:

Murals on existing walls

Material:

Graphic murals painted directly onto existing walls or as applied graphic wall paper / vinyl

Comments (supersedes original toolkit)

Location:

On wall outside teaching centre

Changes:

- Review and propose best materials and fixing method
- Specify size based on distance of audience viewing panel, for example 1m, 5m, 10m, 20m, 50m away
- Specify dimensions of logo, lettering and shapes based on Brand hub guidance
- Specify colour references from headline sheet
- Don't paint directly on to walls

Usage

- For use in British Council owned centres and offsite centres

Exterior

Original Toolkit

1.06 Exterior - Billboards

8

Item:
Billboards

Material:

Exterior grade vinyl graphics applied to existing billboard structures or exterior hoardings

Comments (supersedes original toolkit)

Location:

On wall outside teaching centre

Changes:

- Specify size based on distance of audience viewing panel, for example 1m, 5m, 10m, 20m, 50m away
- Specify dimensions of logo, lettering and shapes based on Brand hub guidance
- Specify colour references from headline sheet
- Images will need to be interchanged based on location at a later stage using Brand Hub YL photo shoot

Usage

- For use in British Council owned centres and offsite centres

Exterior and Interior

Original Toolkit

1.03 Exterior - High-Level Building Signage

5

Item:

High-level building signage

Material:

British Council brand mark and logotype as individual elements.

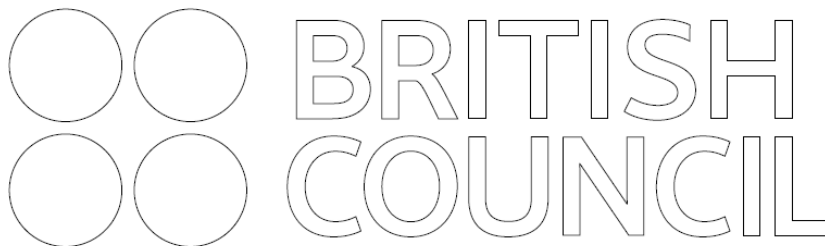

Aluminium / acrylic construction finished white

Internally illuminated white whenever possible

Indigo Variant:

White Variant:

Comments (supersedes original toolkit)

Location:

On front of building or interior unit, either as part of a sign board, individual cut out lettering or on the roof as individual lettering

Changes:

- Review and propose best materials and fixing method
- Specify size and thickness based on distance of audience viewing logo, for example 1m, 5m, 10m, 20m, 50m away
- Specify dimensions of logo and dimensions in relation to floor and ceiling
- Specify colour references from headline sheet
- Specify floodlighting from below or above, not internally illuminated
- Specify when to use white and when to use indigo logo

Usage

- For use in British Council owned centres and offsite centres

Exterior and Interior Original Toolkit

1.08.2 Exterior - Dress Existing Planters / Furniture

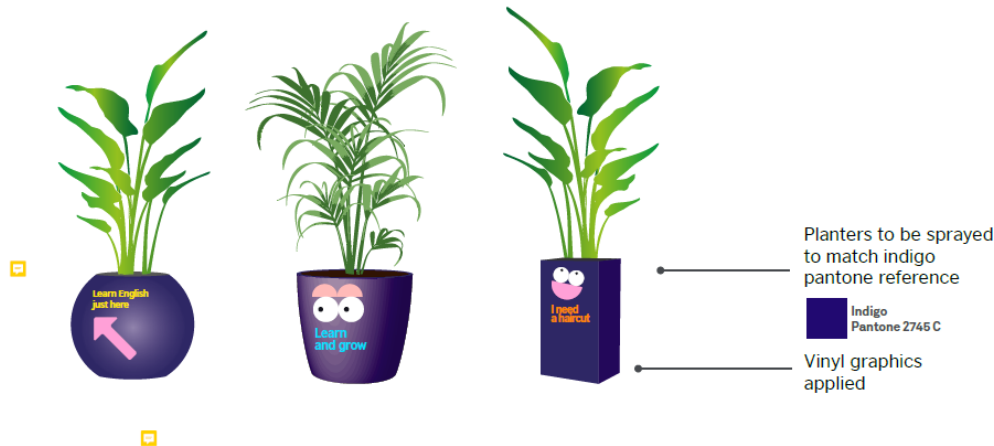

11

Item:
Dress Existing Planters / Furniture

Material:

Brand colours and messaging applied to existing planters, benches and exterior furniture where possible.

Paint existing structure and apply exterior grade vinyl lettering and graphics

Comments (supersedes original toolkit)

Location:
On existing and new plant pots

- Changes:**
- Specify size based on size of plant pot
 - Specify dimensions of lettering and shapes based on Brand hub guidance
 - Specify colour references from headline sheet
 - Can be applied to any colour of plant pot, not just indigo

- Usage**
- For use in British Council owned centres and offsite centres

Exterior and Interior

Original Toolkit

1.10 Exterior - Vinyl / Signage To Glazing

14

Item:

Vinyl / signage to glazing

Material:

Vinyl graphics applied internally to external facing windows and glazing

Style 1: Text and character

Style 2: Pattern and image

Usage

- For use in British Council owned centres and offsite centres

Comments (supersedes original toolkit)

Location:

On existing and new external and interior glazing

Changes:

- Specify dimensions of logo and dimensions in relation to floor and ceiling
- Specify colour references from headline sheet
- Propose different versions for:
 - Block view from outside for child protection but allow light in and occupants to see out
 - Partially block lower part to hide furniture etc. but leave upper part transparent to welcome customers inside
 - Block view and light completely
- Ensure compatibility with security film on other side of glass for bomb protection
- Avoid view of reverse writing on the back when viewed from inside
- Provide examples of application to different glass sizes across multiple panels

Original Toolkit

2.15 Exterior - Window Vinyls

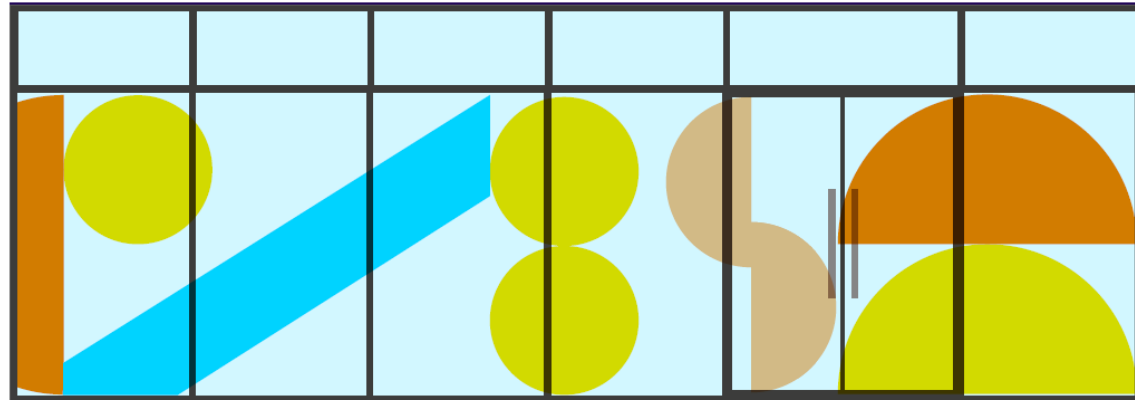

32

Item:

Vinyl / signage to glazing

Material:

Vinyl graphics applied internally to external facing windows and glazing

Usage

- For use in British Council owned centres and offsite centres

Comments (supersedes original toolkit)

Location:

On existing and new external and interior glazing

Changes:

- Specify dimensions of logo and dimensions in relation to floor and ceiling
- Specify colour references from headline sheet
- Propose different versions for:
 - Block view from outside for child protection but allow light in and occupants to see out
 - Partially block lower part to hide furniture etc. but leave upper part transparent to welcome customers inside
 - Block view and light completely
- Ensure compatibility with security film on other side of glass for bomb protection
- Avoid view of reverse writing on the back when viewed from inside
- Provide examples of application to different glass sizes across multiple panels

Exterior and Interior Original Toolkit

2.04 Exterior - Playground Learning Games

20

Item:
Playground learning games

Material:
Graphics in heavy duty exterior grade
floor paint

Comments (supersedes original toolkit)

Location:
On floors

Changes:

- Review and propose best materials and fixing method for interior and exterior use
- Specify size based on available floor space
- Specify dimensions of lettering and shapes based on Brand hub guidance
- Specify colour references from headline sheet

Usage

- For use in British Council owned centres and offsite centres

Original Toolkit

2.16 Exterior - Bins

33

Item:
Bins

Material:

Vinyl graphics applied to existing bins

- Light Orange
Pantone 149C
- Blue
Pantone 2995c
- Orange
Pantone 151 C
- Yellow
Pantone 116C
- Indigo
Pantone 2745C

Comments (supersedes original toolkit)

Location:

On existing and new bins

Changes:

- Include graphics for different bin types, for example general, food, paper and plastic etc.

Usage

- For use in British Council owned centres and offsite centres

Exterior and Interior

Original Toolkit

3.02 Interior - 3D Directional Wayfinding

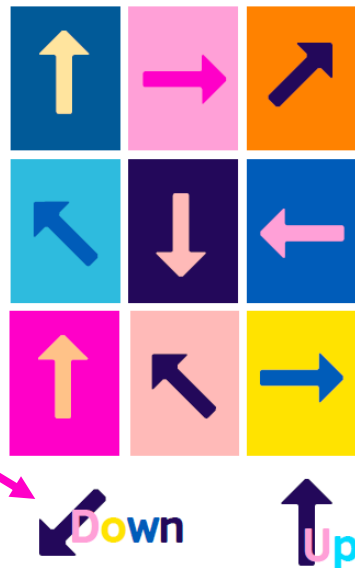

36

Item:
3D Directional Wayfinding

Material:
Foamex arrows and individual letters
sprayed to match brand colours

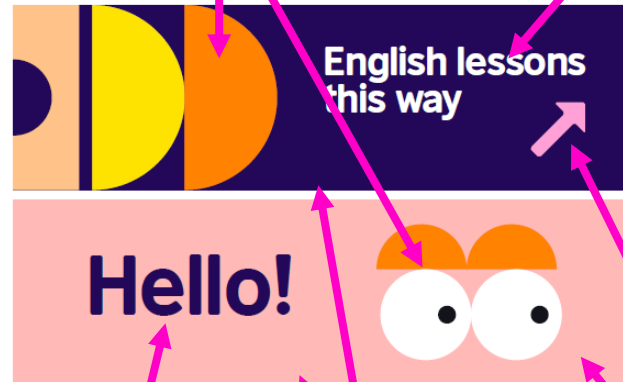

Note:
Design styling to follow 2D vinyl
applications but with letters and arrows
upgraded to 3D material

Vinyl on aluminium
panel or screen-
printed on acrylic

Raised cut out panels, mix of
paint and vinyl on panel, can
be removed easily for re-
painting of wall

10mm deep
cut out acrylic
letters

10mm deep
cut out acrylic
letters

Add protective
skirting where wall
meets the floor

Paint, match brand
colour as closely as
possible

Comments (supersedes original toolkit)

Location:

- Arrows throughout premises
- Large Hello signage near entrance or in front of house

Changes:

- Don't use vinyl's applied to entire wall as they are expensive and can't be maintained, see notes
- Don't apply small cut out acrylic letters or shapes to wall, as they are hard to paint around, see notes

Usage

- For use in British Council owned centres and offsite centres

Exterior and Interior Original Toolkit

3.03 Interior - Floor Vinyls

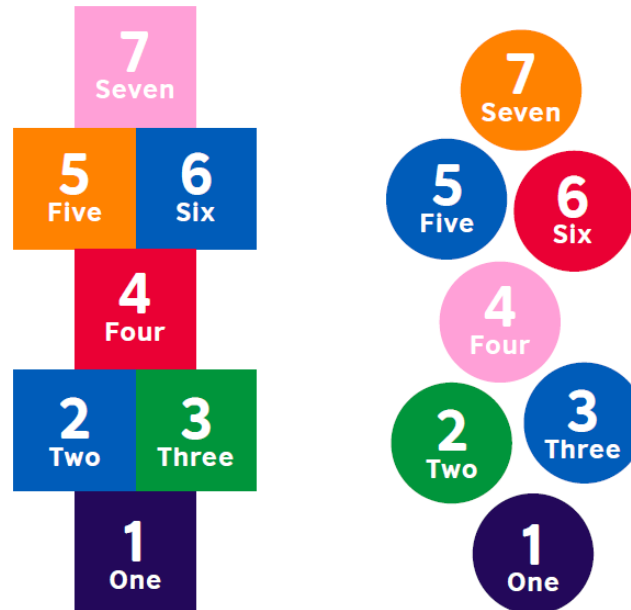

37

Item:

Floor Vinyls

Material:

Heavy duty floor grade vinyl graphics

Comments (supersedes original toolkit)

Location:

On floors

Changes:

- Review and propose best materials and fixing method for interior and exterior use
- Specify size based on available floor space
- Specify dimensions of lettering and shapes based on Brand hub guidance
- Specify colour references from headline sheet

Usage

- For use in British Council owned centres and offsite centres

Interior

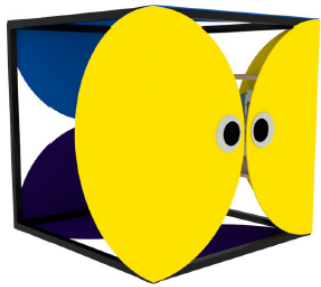

Original Toolkit

2.11 Exterior - Outdoor Library Pavillion

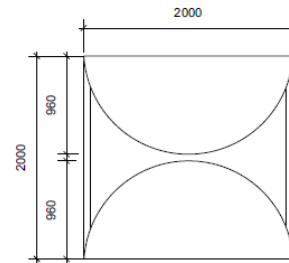

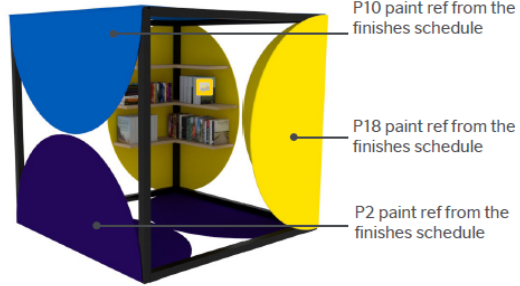

29

Item:
Outdoor Library Pavilion

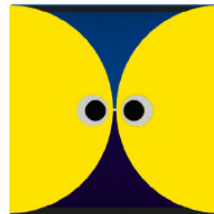

Material:
Metal framework with branded shapes applied as recycled plastic or acrylic panels

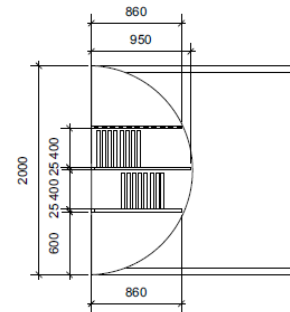

3D Visual

Plan

Front Elevation

Section

Design
Intent
Item

Comments (supersedes original toolkit)

Location:
In front of house

Changes:

- This design is very difficult to fabricate and presents numerous health and safety hazards, particularly around child protection
- Propose an alternative pre-made off the shelf book shelf with surrounding branding

Usage

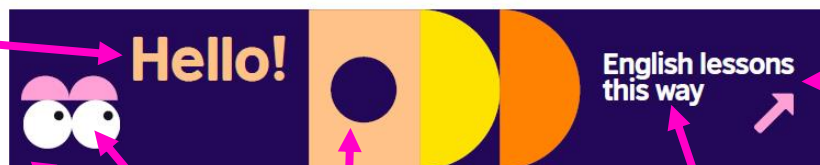

- For use in offsite teaching centres

3.04 Interior - Escalator Walls

38

Item:
Escalator Walls

Material:
Vinyl graphics applied to walls / glazing by
escalators

10mm deep
cut out acrylic
letters and
shapes

Add protective
skirting where wall
meets the floor

Raised cut out panels, mix of
paint and vinyl on panel, can
be removed easily for re-
painting of wall

10mm deep
cut out acrylic
letters and
shapes

Paint, match brand
colour as closely as
possible

Comments (supersedes original toolkit)

Location:
On routes to and around teaching
centre

Changes:

- See comments, which apply to all
- Format for horizontal walls and walls going up escalators and stairs

Usage

- For use in British Council owned centres and offsite centres

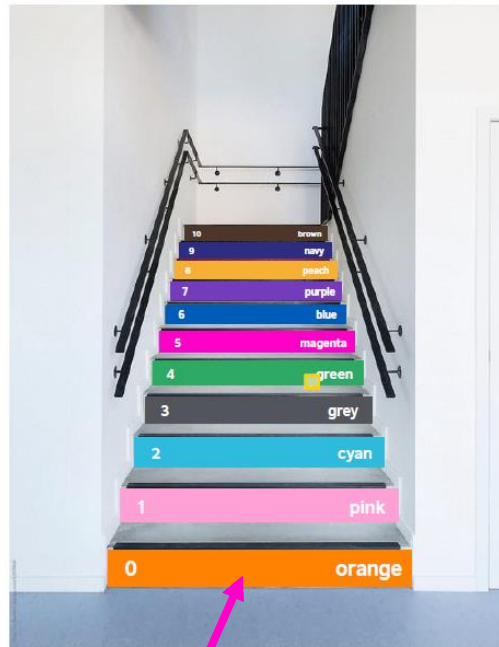

Interior and exterior Original Toolkit

3.09 Interior - Staircase Riser Vinyls

43

Item:
Staircase riser vinyls

Material:
Matt vinyl graphics applied direct to each
stair riser

Add gap between floor
and underside of vinyl
to minimise damage
from cleaning

Comments (supersedes original toolkit)

Location:

On stairs to and around teaching
centre

Changes:

- Specify very tough hard wearing and easy clean material to prevent damage from those using stairs
- Specify dimensions
- Specify colour references from headline sheet
- Account for local East Asian statutory requirements regarding accessibility and stair risers

Usage

- For use in British Council owned centres and offsite centres

Interior and exterior

Original Toolkit

3.08 Interior - Column Wraps

42

Item:

Column Wraps

Material:

Matt vinyl graphic wallpaper applied direct to columns

Add protective skirting where column meets the floor

Comments (supersedes original toolkit)

Location:

On columns

Changes:

- Specify dimensions of logo and dimensions in relation to floor and ceiling
- Specify colour references from headline sheet

Usage

- For use in British Council owned centres and offsite centres

Interior

Original Toolkit

3.11

Interior - Welcome Desk Back-Drop

45

Item:

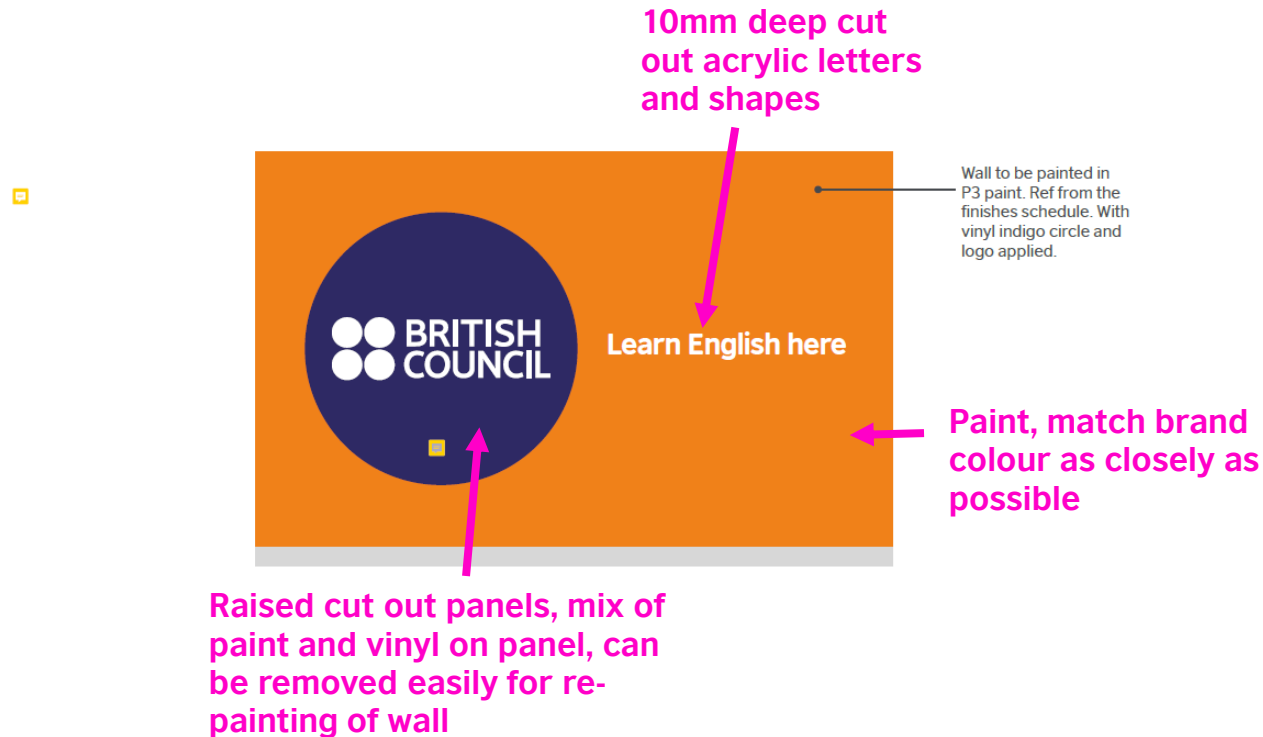

Welcome desk back-drop

Material:

Wall - painted orange (matt finish)

Roundel badge - in sustainable/recycled material 'Etronit' (compressed paper) or similar finished Indigo to front face and return edge. Logo applied in matt white vinyl.

'Learn English Here' - Individual letters formed from compressed paper (Etronit or similar) and sprayed white, bonded direct to wall.

Comments (supersedes original toolkit)

Location:

In front of house

Changes:

- Specify dimensions of logo and dimensions in relation to floor and ceiling
- Specify colour references from headline sheet
- 2 versions:
 - Full wall with no furniture
 - Wall with furniture at 720mm high in front of wall

Usage

- For use in British Council owned centres and offsite centres

3.14 Interior - Meet The Teacher Panels

48

Item:
Meet The Teacher Panels

Material:
Matt vinyl graphics for header and pattern
Teacher details printed and displayed in
A4 frames that can be easily updated

Meet the teachers

Design
Intent
Item

Comments (supersedes original toolkit)

Location:
In front of house

- Changes:**
- Specify dimensions in relation to floor and ceiling, text and shapes
 - Specify colour references from headline sheet
 - Mount all on raised aluminium panel with whole vinyl applied to panel
 - Requires good photographs of teachers

- Usage**
- For use in British Council owned centres and offsite centres

Interior

Original Toolkit

3.15 Interior - Character Vinyls (Wall treatments)

49

Item:
Character Vinyls (Wall treatments)

Material:
Matt vinyl graphics applied direct to walls

Note:
Specific designs can be adapted locally from library of design elements. Creating different applications across multiple walls within the same venue.

Comments (supersedes original toolkit)

Location:
In front of house and corridors

Changes:

- Specify dimensions in relation to floor and ceiling, text and shapes
- Specify colour references from headline sheet
- Use pin boards and not cork
- Avoid small objects and text individually attached to wall

Usage

- For use in British Council owned centres and offsite centres

3.24 Interior - Celebration Podiums

57

Item:
Celebration Podiums

Material:

Cork stool

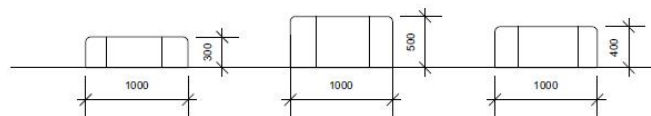

Design
Intent
Item

Contractor to ensure
cork podiums are
securely fit to floor.

3D Visual

Front Elevation

Plan

Comments (supersedes original toolkit)

Location:

In front of house and corridors

Changes:

- Look for an off-the-shelf product which achieves the same thing

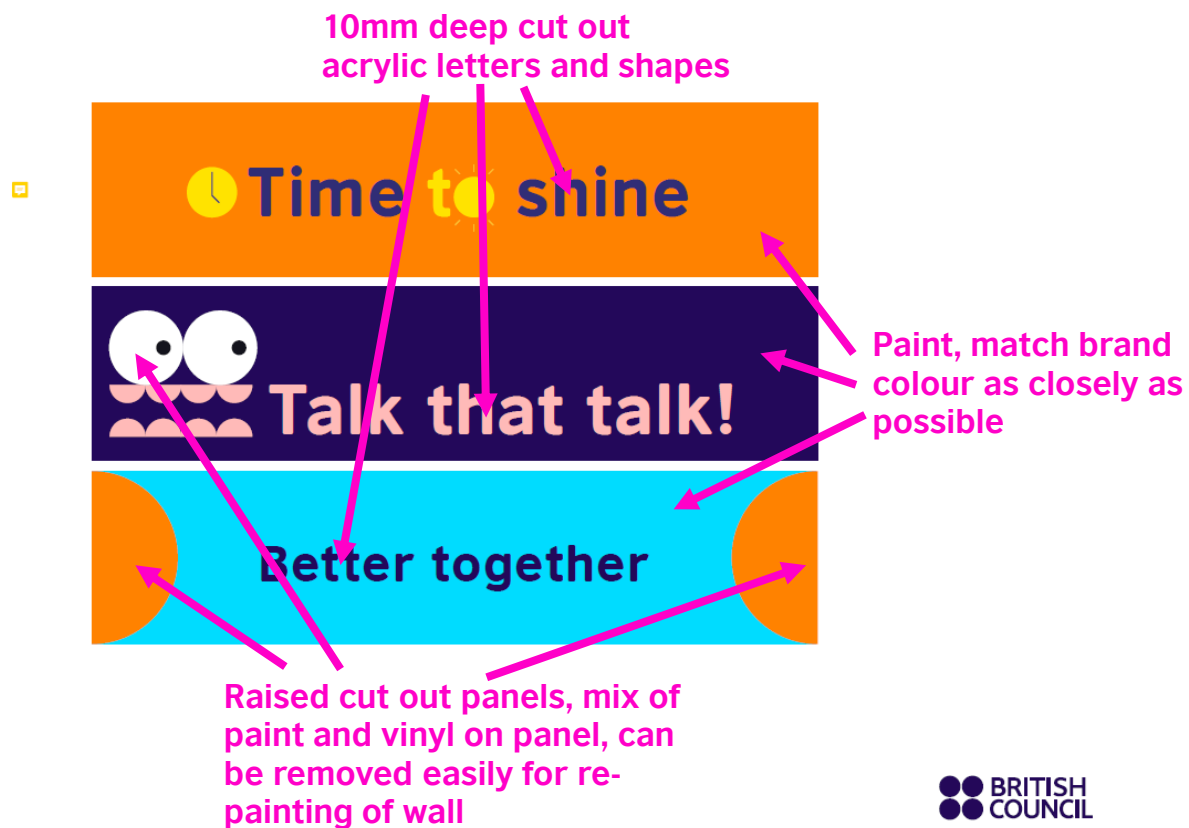

Usage

- For use in British Council owned centres and offsite centres

4.01 Interior - Large Scale Wall Messaging

Item:
Large scale wall messaging

Material:
Painted walls with lettering and graphics in
matt applied vinyl

Comments (supersedes original toolkit)

Location:
In front of house and corridors

- Changes:**
- Specify dimensions in relation to floor and ceiling, text and shapes
 - Specify colour references from headline sheet
 - Use pin boards and not cork
 - Avoid small objects and text individually attached to wall
 - 2 versions:
 - Full wall with no furniture
 - Wall with furniture at 720mm high in front of wall

Usage

- For use in British Council owned centres and offsite centres
